FALL, 1951

Dear Customer:

Supplying plants, properly grown, liberally graded, and carefully packed at the lowest possible price, has made us thousands of gardening friends throughout the United States. Your request for catalogs and your nice orders have increased our mailing list to the largest in our 77 years of nursery business.

This fall we are glad to send our compact catalog, listing a complete assortment of fine plants, suitable for transplanting at this time of the year and at prices that are reasonable. All items prepaid to your door except those too large to package in compliance with postal regulations.

In the spring you will receive a large catalog with many illustrations in full color, completely filled with exciting additions for your garden, more fully described than space will allow in our fall booklet. Roses, Cannas, Dahlias, Gladiola, and many other items best planted in the spring will be featured, along with the complete line of nursery stock in this big spring catalog which will follow in January. We offer only first grade stock and guarantee every plant we ship to be a first quality, sturdy and free from disease and to reach you in perfect condition.

We exercise care and diligence to have our varieties true to label and sell our stock with the express guarantee, that we will, on proper proof, replace any that may prove otherwise or refund the amount paid for the same, which will constitute the extent of our liability. The orders will be packed fresh and have our careful attention. Your comments will be appreciated.

Sincerely yours,

Dale E. Wild

THE NEW *Elm "Coolshade"...*

Undoubtedly the most beautiful Elm we have ever seen. It is a most practical all-purpose shade tree. Unlike the American Elm, it does not have large lateral limbs that are dangerous when overhanging the residence. It may be planted close to the house without worry.

IT'S TOUGH—does not break in the wind and under the burden of ice and snow like the ordinary Chinese Elm.

IT'S BEAUTIFUL—forms a compact tree, somewhat resembling the Hard Maple in form. (See illustration.)

IT'S HARDY—like all Chinese Elm, it is hardy and drought resistant. Apparently it is not subject to the Dutch Elm disease or Phloem necrosis, which affects the American Elm.

IT'S CLEAN—does not shed leaves early and cause an unsightly lawn—holds its leaves late into the fall.

IT'S RAPID IN GROWTH—not quite so rapid as ordinary Chinese Elm, however produces an abundance of deep green foliage affording a complete shade—a "COOLSHADE"—and a truly beautiful shade tree.

WE SINCERELY RECOMMEND THIS AS THE BEST ELM WE HAVE EVER KNOWN. Grows 35 to 50 feet high.

Privet the Living Fence

Plant 10 to 12 in. apart. Prune back to within 4 to 6 in. of the ground to make them branch low and thickly. The second spring, if not sufficiently thick, again prune back, a little higher. After that prune to keep the hedge the height and width desired, usually about three times a year. Avoid severe pruning after the middle of August.

Privet, Amur River North; *Ligustrum amurense*. A rapid growing Privet of upright habit, taking the place of California as it is reliably hardy here. Very fragrant small white flowers like tiny lilacs in late May, followed by black berries; seldom blooms when pruned as a hedge.

Hardy Vines - NATURES DRAPERY

When planting cut the tops back severely, particularly clinging vines such as *Euonymus radicans* and Boston and English Ivy, as it is the new growth which clings. Twining vines must have a support they can twine around. If the soil near the foundation is poor, replace with good soil.

Bittersweet, American. A high climbing vine; orange-yellow seed pods reveal bright red seed in clusters in autumn; thrives in sun or partial shade; twining.

2 yr., prepaid..... .75 each; 2 for 1.40

Clematis paniculata; Japanese Clematis. Thousands of fragrant pure white four-petaled starry flowers 1-1½ in. across in September; twining by leaf stems.

2 yr., prepaid..... .75 each; 2 for 1.40

Honeysuckle, Goldflame. A compact twining vine blooming almost all summer; flowers in clusters, deep rose outside, yellow inside; fragrant after nightfall.

2 yr., prepaid..... .75 each; 2 for 1.40

Honeysuckle, Hall Japanese. Flowers very fragrant, white becoming yellow, in June and at intervals to fall; twining; growth rapid.

2 yr. No. 1, prepaid..... .60 each; 2 for 1.10

Honeysuckle, Scarlet Trumpet. Flowers trumpet-shaped, scarlet outside, buff within, 1½-2 in. long in clusters at tips of branches; twining.

2 yr. No. 1, prepaid..... .75 each; 2 for 1.40

Ivy, Boston. A graceful vine, excellent for smoothly and closely covering a wall of wood, brick or stone. Leaves three lobed, bright green turning orange to scarlet in the fall.

2 yr. No. 1 plants, prepaid..... .75 each; 2 for 1.40

Ivy, English. Evergreen waxy leaves; excellent where persistent foliage is desired. Plant on north of building or in shaded areas. Does not do well in full sun.

No. 1 plants, prepaid..... .75 each; 2 for 1.40

Wisteria, Chinese—Next Page.
